# WHICH IS THE RIGHT STROLLER FOR YOU?

## NXT90

Modern. Stylish. Robust. The NXT90 is the next generation of strollers that has it all.

## NXT90 F

Like the NXT90, but even more spacious and with the option to recline to a lie flat position.

## NXT60

Manoeuvrable, lightweight and robust, with a more compact chassis than the NXT90. The NXT60 is perfectly suited for an urban environment.

## NXT60 F

Like the NXT60, but even more spacious and with the option to recline to a lie flat position.

## NXT30

Our smallest model. Active and fun buggy, reclines to level lying position.

## NXT CHALLENGE

Planning to do a workout or go for a run? Complement your NXT with a jogging chassis.

## NXT DOUBLE

Our simple Go Double adapter allows you to expand your NXT90 to make a sibling stroller.

## NXT TWIN

The ultimate sibling and twin stroller. Combine with your choice of NXT seat units and carrycots.

### MONDIAL DE LUXE

Elegant and exclusive – a modern classic. Spacious, wonderfully comfortable with great accessories. Seat unit included.

### EDGE

Edge is one of the best, most spacious and fully equipped Duo Combis on the market. Seat unit included.

# Emmalunga®

MADE IN SWEDEN

### SUPER VIKING

Practical, manoeuvrable all-rounder that you can buy in separate units – can be expanded to make a sibling stroller.

### VIKING

Compact, manoeuvrable city stroller. Simple and practical. Units are purchased separately – can be expanded to make a sibling stroller.

### DOUBLE VIKING

Parents' choice. Practical, tried and tested twin or sibling stroller purchased in separate Viking units. Combine the units however you like.

An aerial photograph of the Emmaljunga factory complex, a large white industrial building with a dark roof, situated in a rural area surrounded by dense forests with vibrant autumn foliage in shades of yellow, orange, and green. Several small residential houses are scattered around the factory. A road runs along the front of the property, and a parking lot with several cars is visible. A white text box with a thin black border is centered in the upper half of the image, containing the text "EMMALJUNGA SINCE 1925".

EMMALJUNGA SINCE 1925

## OLDEST PRAM FACTORY IN THE WORLD

HERE AT EMMALJUNGA, WE'VE BEEN MAKING PRAMS OF THE HIGHEST QUALITY SINCE 1925.

WE STAND FOR

# QUALITY SAFETY & SUSTAINABILITY

### QUALITY

For us, quality is about comfort, durability, stability and a long lifespan. But it's also about a secure buying experience, in which Advice and Service are given the highest priority.

### SAFETY

Safety always comes first. That's how it's been since Emmaljunga was first established

over 90 years ago. Every stroller we make is tested based on the most stringent safety requirements. Every time you use your Emmaljunga, we want you to feel that you and your child are completely safe.

### SUSTAINABILITY

Everything we do at Emmaljunga we do with consideration for the environment. When we approach our environmental work, we always

ask ourselves: Is the product sustainable from a lifecycle perspective? What can we do to extend its lifespan? If you look at your Emmaljunga, you'll see that it's been designed in a way that makes it easy to replace individual components. Our goal is that your stroller will last to serve more than one child, so that a sibling will also get to grow up in an Emmaljunga pram.

*"As an owner of an Emmaljunga, you can be proud. Proud that your stroller is manufactured under the best conditions. Proud that Emmaljunga takes responsibility for the environment. Your Emmaljunga is made for you, with the next generation in mind"*

**95% OF THE PARTS FOR OUR STROLLERS ARE  
MADE AT OUR OWN FACTORY IN SWEDEN.**

We endeavour to make the world's best strollers. And a good stroller requires robust components that will last for many years. We make all the components shown in the photograph ourselves at our own factory, in order to achieve the quality we strive for. You can feel complete confidence in your Emmaljunga stroller, and you will notice the difference.

# IMPORTANT FOR ALL OF US

HERE AT EMMALJUNGA, WE ARE CONVINCED OF THE IMPORTANCE OF  
WORKING TOWARDS A HEALTHIER, MORE SUSTAINABLE WAY OF LIVING.

## EMMALJUNGA THE FACTORY

We are convinced that productivity and durability can go hand in hand. That it's possible to create environmentally friendly prams of world-class safety and quality. Our aim is to become a green factory, and that goal permeates everything we do. But getting there is a gradual process. The next step is for at least 50% of the material in your stroller to be recycled.

## RENEWABLE ENERGY

We are working towards becoming as self-sufficient as possible. That's why we're building 1,500 m<sup>2</sup> of solar cells on the factory roof to produce our own electricity to power our factory. The remaining primary energy comes exclusively from certified hydro-power. A green factory needs green energy!

## ENVIRONMENTAL INVESTMENTS

Our environmental investments mean we are now able to heat our factory in Sweden using entirely fossil-free sources. We have our own recycling programme and the factory is environmentally certified according to the ISO14001 standard. We also have a closed water purification system, and we do not produce any emissions to water.

## FOSSIL-FREE HEATING

Emmaljunga has its own surface finishing to treat the surfaces of our prams. In order to take advantage of the energy, we have installed seven heat pumps of 50kW each, which recycle the heat energy. In winter, this special system heats the entire factory, which means that Emmaljunga has completely fossil-free heating. This has cut CO<sub>2</sub> emissions by approximately 400 tonnes per year.

# ECO

## **NXT ECO, OUR MOST ECO-FRIENDLY STROLLER**

We have launched an ECO collection, using particularly sustainable materials. The exterior fabrics are made from recycled PET bottles, while the interior fabrics consist of 100% organic cotton. NXT ECO also features 100% recyclable wheels and 50% recycled aluminium in the chassis. An obvious choice for the environmentally conscious!

## NXT90 GO DOUBLE

---

NXT90 GO DOUBLE / NXT CARRYCOT

It's easy to fit an NXT Go Double Adapter to your NXT90 and transform your single stroller into a sibling stroller. You can now attach the seat unit and carrycot to the same chassis.

Here's an example of how the various combinations might look.

NXT90 GO DOUBLE / NXT SUPREME CARRYCOT

# NXT Twin

EMMALJUNGA SINCE 1925

Emmalunga has done it again; a completely unique chassis that allows you to use your spacious NXT90/60/F seat units or carrycots in all manner of combinations.

If there's an addition to the family, all you need to do is add a chassis.

This world first is easier to manoeuvre than many single strollers. It can be used in the following combinations: NXT90, NXT90F, NXT60, NXT60F, NXT Carrycot. The stroller fits through all standard sized doors and is extremely compact when folded.

Delivery spring 2019.

EMMALJUNGA SINCE 1925

## A REAL SPORTS STROLLER

Planning to do a workout or go for a serious run? Set yourself a challenge! The NXT Challenge includes a chassis and seat unit protection cover. Use your existing NXT90/NXT60 seat unit (from MY18), or buy a separate seat unit in your favourite colour.

# NXT Challenge

EMMALJUNGA SINCE 1925

The seat unit can be used both parent- and forward-facing. The chassis is supplied with a practical cover that provides protection for your child during your fitness session. The chassis can be folded completely flat for easy storage.

- Foldable, light and compact
- With a Weber™ disc braking system on the back wheel and an automatic roll-stop safety function.
- Enjoy!

# SUPER VIKING

An extremely practical, robust and reliable all-rounder that comes in separate units: Chassis, carrycot and seat unit.

You can choose between a Competition, Outdoor or Lounge chassis.

**CARRYCOT:** Practical, easy to use carrycot from birth up to age 6 months, with a useful carrying handle in the hood. Just click it onto a Super Viking and you have a wonderful pram.

Add a Super Viking seat unit so you can use the stroller from 6 months to 3 years.

If there's an addition to the family, you can expand it with a Go Double Adapter, which allows you to fit both a carrycot and seat unit to the same chassis.
